

Smart Home Treadmill

スマートホームウォーキングマシン

Altrathin Intelligence Walking Pad

April, 2018

New Design 世界初

スマート ホームウォーキングマシン

Compact and slim design, satisfied for easy movement and storage

軽い・丈夫なアルミ材料・最小重量25kg Lightest - only 25kg weight

スリムでコンパクト

WORLD'S FIRST—NO WELDING TREADMILL

The world's first treadmill without welding process. Only 22pcs invisible bolts for assemble which makes Miniwalk stable and more safe.

LIGHT

25kgs Only, which is 1/4 of traditional treadmill.

High quality Alu and new composite material contributes to the lightness and safe.

軽い

超薄 最小薄さ4.7cm

Thinnest in the world. Minimum ground clearance 4.7cm

コンパクトなのにベルトのサイズが大きい 幅46cm x 長さ120cm

Big running belts 46cm x 120cm

THIN

With minimum ground clearance 4.7cm & maximum ground clearance 9cm.

薄い

4.7CM

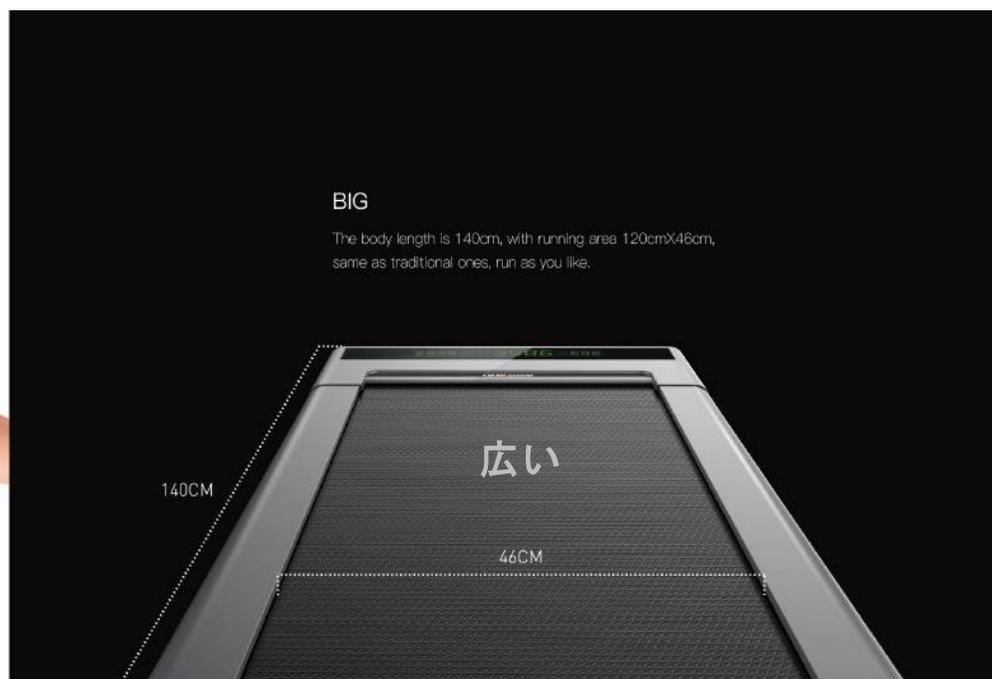

BIG

The body length is 140cm, with running area 120cmX46cm, same as traditional ones, run as you like.

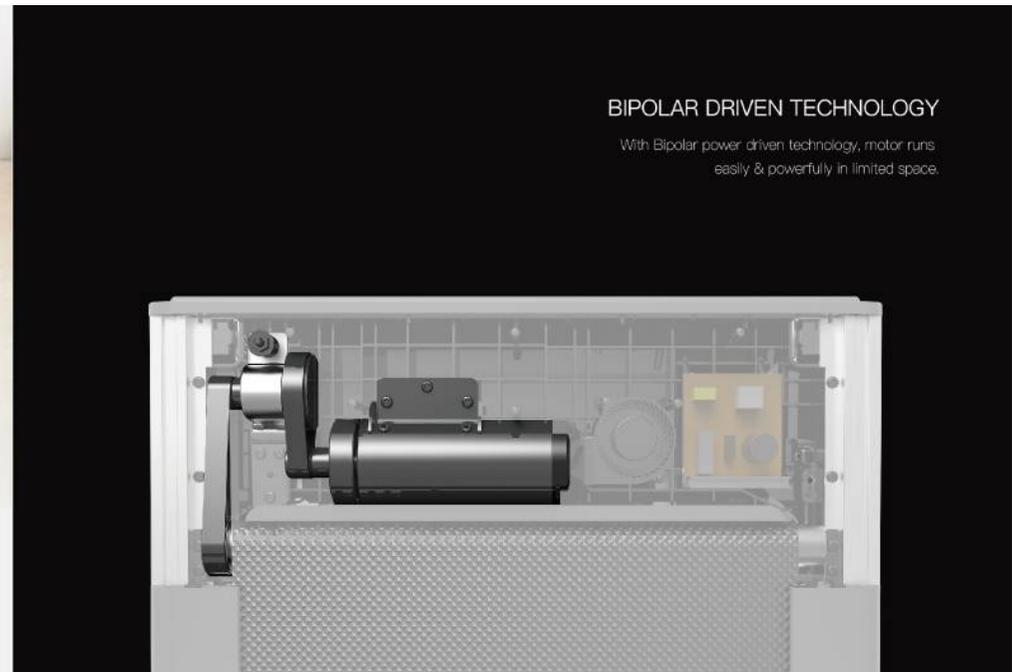

広い

140CM

46CM

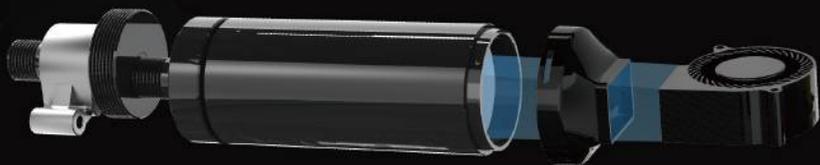

赤外線体感センサーでスピードをコントロール パワフルなモーター回転を二極駆動技術で実現 Speed Control with IR Sensor · Bipolar driven technology

収納便利 収納スペース最小0.06平米 Wクーリングシステムでモーターを効果的冷却 0.06m² is enough to keep it · Double air cooling system

DOUBLE AIR COOLING SYSTEM

By using double air cooling technology, motor still keeps cool after 2 hour's running.

高耐久 連続運転時間100分で自動停止

WALL SUCTION STORAGE

0.06m² is enough to keep it. Powerful magnets are in the back foot guards, and mini walk can be tightly attached to the wall. You can also put it under a bed or sofa.

立掛収納
スペース

ベルトのポジションを走行中で自動補正 衝撃吸収システムで42.7%の騒音・衝撃を吸収 Automatic belt correction · 42.7% of the noise and shock can be absorbed effectively

ベルト自動補正構造

AUTOMATIC BELT CORRECTION

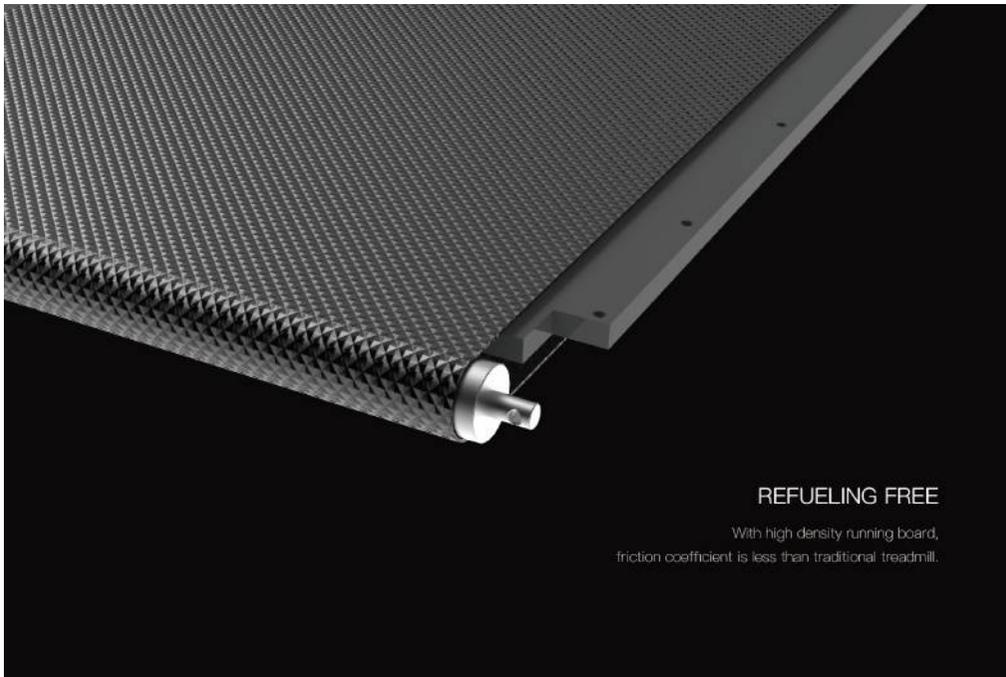

The back roller spring has expansion and tightening function, belt will correct automatically.

衝撃吸収構造

SUPER SHOCK-ABSORBING SYSTEM

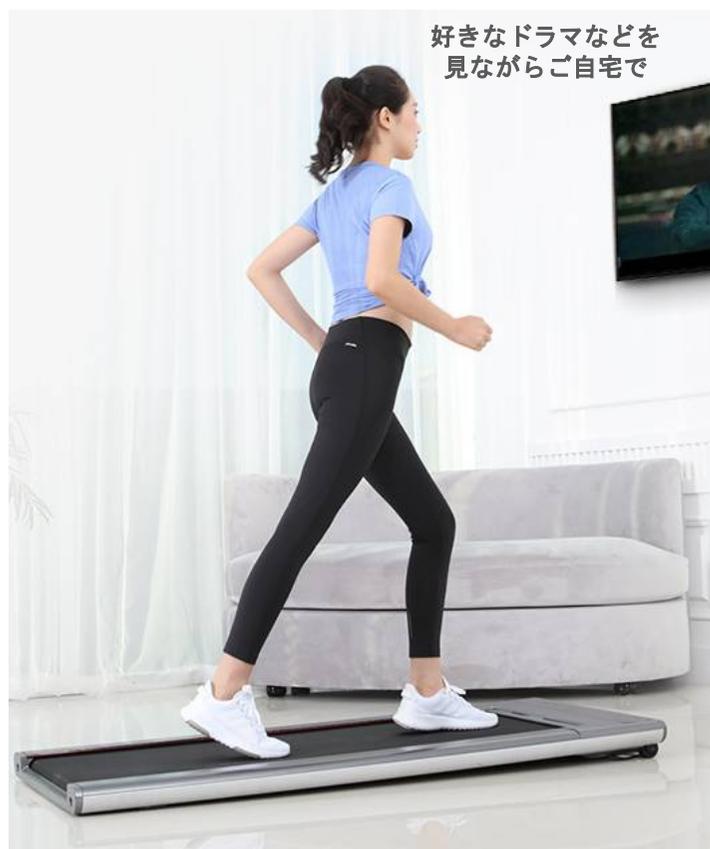

Mini walk has back foot pat, which is anti-slip and shock absorption, with high quality aluminum material and excellent structure, 42.7% of the noise and shock can be absorbed effectively.

ベルトの潤滑メンテ不要
運動時の騒音は65dB及び以下
Refueling free ・ Super shock-absorbing system

組立作業一切不要 コンセントに差し込みだけ
3歩でスタート 使い方簡単

User steps on it and walk for 3 steps, it begins to run automatically

ウォーキング最高スピード Walking Speed

- ・ 6km/H (標準タイプ Standard Type)
- ・ 8km/H (ハンドレール付き With Handrail)

INTELLIGENT SPEED CONTROL

When handrail is added, max speed will be 2km/h more than normal ones.

Max speed is 8km/h when using handrail.

Max speed is 6km/h without handrail or handrail is folded.

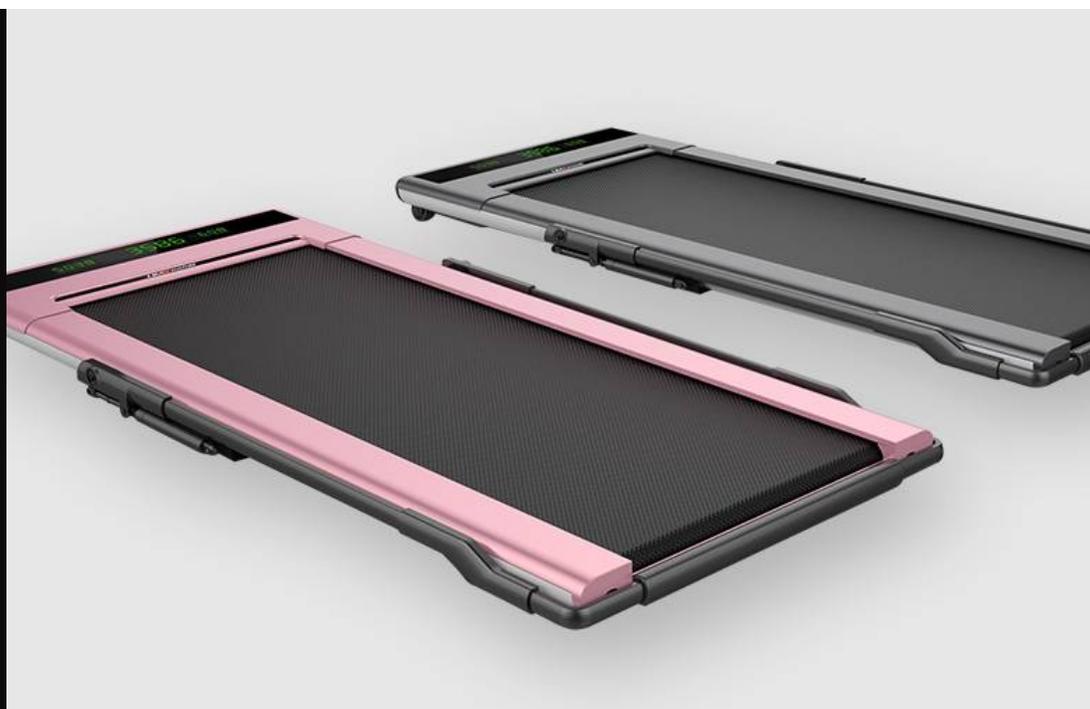

HYDRAULIC HANDRAIL

If handrail is added, the max speed will be changed from 6km/h to 8km/h. And handrail lift automatically.

デジタルパネルの表示：時間・歩数・距離

Display of digital panel: Time, Number of steps, Distance

選べる2色: ・パールグレー ・ローズピンク

Two colors: Pearl Gray ・ Rose Pink

本体サイズ (Size) :

- ・ 1435 × 620 × 90mm (標準タイプ)
- ・ 1450 × 670 × 90mm (ハンドレール付タイプ)

ISPO Munich 2018

2018ドイツ国際スポーツ用品展示会

Gold Winner 受賞
